

CRYSTALLITE

Crystallite is a privately owned, Cape Town based, solid surface sanware manufacturer. The company has been trading since 2011 with current facilities stretching over 1500 square meters. The company employs 50 employees and has recently upgraded its manufacturing facilities with new machinery.

With the hands-on approach of this company, all products are designed and manufactured internally, which includes plugs, moulds, custom units and a wide range of standard products.

All Crystallite products are finished by hand with a selection of finishes.

CRYSTALLITE MATERIAL

All our products are solid surface which is manufactured from a specialised compound of natural minerals, pure polyester polymers and crystal aggregate . The final finish is an ice-white, non-porous, extremely hygienic product which is highly stain and scratch resistant.

Damage caused to product in transit or during installation can easily be repaired on-site.

Crystallite products are renewable and environmentally friendly.

BESPOKE CRYSTALLITE DESIGNS

Each customers' request is designed using CAD programs.

Material requirements are determined and cut to size.

Requested units are fabricated and finished by hand.

Due consideration of installation & plumbing requirements are integral to the process.

Products are properly packaged.

All necessary fittings are supplied, excluding plumbing hardware.
